

PLEASE REJECT PETITION 04-160!

I am a faithful XM Radio subscriber (which means I PAY for the services I get from XM). I gladly pay the subscription price, even though regular radio is available, because XM delivers WHAT I WANT, WHEN I WANT IT. Last time I checked, that was what we like to call the AMERICAN WAY - Freedom from the oppression of commercial radio that dictates what I can listen to.

The fact of the matter is, commercial radio is still available and still presented the way it always has. What XM Radio provides is a service to me and my family. The Weather and Traffic channels are some of our favorite channels because they are DIFFERENT than what the commercial stations provide. Rather than one-minute spots saying that the Beltway is backed up (I could tell you that!!!!!!!!!!), XM's traffic channels provide in-depth information ALL the time.

I demanded better radio and I got it - but not from commercial radio - I didn't get it until XM Radio decided to provide it. I pay for it and it's worth it - do not take away my freedom! Reject the NAB's attempt to limit my freedom by rejecting HR 4026!

Loyal and Free American!
